At this event, local physicians will go over some of the treatment options for Parkinson's disease. The physicians will also discuss Activa® Deep Brain Stimulation, and FDA-approved, nondrug therapy for controlling some of the symptoms of Parkinson's disease that has been used by more than 55,000 people worldwide.

There will be an Ask-the-Doctor session and an opportunity to speak with other patients.

*Come learn from local physicians!*

Light refreshments will be served. This event is free, but space is limited.
